We extend our deepest sympathy to Lou and family. Les was always a welcoming face when we would come to visit our family in Clarendon and attend church. When our first child was born, he and my husband had breakfast together at the hospital several mornings and I know my husband enjoyed those visits. May God embrace you and give you comfort!

Les was an outstanding scientist, expert, gentleman, patriot and example. As a physicist, one of my first Pantex assignments (almost 50 years ago) was to spend a week in his Thermal Properties Laboratory to familiarize myself with potential future assignments. Even though I chose to work in other areas, he was always willing (and patient to almost an extreme) to help me in any way he could. I know where he is going - there is absolutely no doubt!!!

Lester was always very special to me. He always spoke to me in church. Papa (Don) and I always enjoyed seeing them out eating at the country club. I remember going to Les and Lou's house every year to sell them popcorn with my twin brother, Tyler when we were in cub scouts. May God give you peace and comfort during this difficult time.
